

CLEANLINESS TO PREVENT TYPHOID

Dr. Stewart Gets Help from Council to Scour City.

EXTRA GARBAGE WAGONS

ADDITIONAL HEALTH INSPECTORS FOR PRECINCTS.

The typhoid fever epidemic was officially brought to the attention of the city council last evening by Dr. E. M. Stewart, the health commissioner. He was given additional garbage wagons and an inspector for each precinct to keep the city in as nearly a perfect sanitary condition as possible, and thereby tend to check the spread of the disease from that cause.

It was expected that the unpleasantness in the board of public works would come up during the progress of the meeting, but it did not. Both City Engineer L. C. Kelsey and Chairman Spencer Clawson of the board were present. Neither had anything to say about the clerkship trouble, and as nothing officially brought the matter to the attention of the council, it went over.

The meeting last evening was the first held in almost two weeks, the councilmen just returning from a northwestern junketing trip of ten days. When the council adjourned, it did so to meet again next Monday night, just long enough to call the roll, Monday being Labor day and a holiday, the council will not transact any business. It must meet, however, but the session will be of only a few minutes' duration.

Stewart's Appeal for Assistance.

The letter of Dr. Stewart to the city council asking for assistance in cleaning up the city, reads as follows:

"The number of garbage wagons and sanitary inspectors in this department are not sufficient to meet the requirements of the city, and with the present number of wagons we are not able to keep the city clean, and therefore, ask authority to increase the number of garbage wagons from eight to twelve, also to put on sanitary inspectors for each precinct to meet the requirements in order to properly carry out the work. The presence of the severe epidemic of typhoid fever emphasizes the necessity of a more thorough cleaning. Seventy-three cases of typhoid were reported in August and nine this far in September.

"We are receiving complaints daily of garbage awaiting to be removed, and as to existing nuisances throughout the city, the department being taxed beyond its facilities to either remove or inspect it."

Seven new cases of typhoid fever were reported to the board of health yesterday. This makes a total of eighty-eight cases of the disease in the city at the present time. The names of only three of the seven victims could be secured last night. They are as follows: Strickler, 20 Ontario court; John Free, 163 1/2 West South Temple street; Elmer Trullinger, 514 East Third South street.

Routine of the Council.

The Emigration Dam & Ditch company notified the council that C. Longson, Ben R. Harries, John Prey and A. S. Martin had been appointed an arbitration committee to meet with a like committee to arbitrate the water rights in Emigration creek. Councilmen A. J. Davis, Vigus and Tuddenham were appointed a committee to represent the board of arbitration.

A protest against changing the grade of North Main street, between South Temple and First North streets, was received and referred to the streets committee. It was signed by Mrs. H. L. Anderson and a score of other taxpayers.

Edward W. Hunter and twelve other citizens protested against granting a franchise for an electric road on First West street. The committee was referred to the committee on streets and municipal laws.

The Salt Lake city & suburban railroad company notified the city council that it had accepted the terms by which it was granted a year extension to its franchise. The new lease on life carries with it a few years of performing a certain amount of construction work in the next twelve months or forfeit its franchise.

Hereafter a special policeman is to be stationed at the city and county building. The appointment of R. M. Johnson was confirmed. He is to serve without pay from the city.

ABSCESSES.

W. H. Harrison, Cleveland, Miss., writes Aug. 15, 1903: "I want to say a word of praise for Ballard's Snow Liniment. I stepped on a nail, which caused the cords in my leg to contract and an abscess to rise in my knee, and the doctor told me that I would have a stiff leg, so one day I went to J. F. Lord's drug store (who is now in Denver, Colo.) He recommended a bottle of Snow Liniment; I got a 50c size and it cured my leg. It is the best liniment in the world."

ABSCESSES, with few exceptions, are indicative of constipation or debility. They may, however, result from blows or fresh injuries, such as splinters, thorns, etc. For sale at Z. C. M. I. Drug Dept.

WHY HAVE TYPHOID?
Drink Distilled Water.
Only 10c. gallon. Phone 1128-Y.

COMMENCING TODAY AND EVERY DAY except Labor Day the admission to CALDER'S will be FREE. On Labor Day we give 50c seats for a lady.

New Wall Paper.
Two carloads wall paper just in. The largest and only new stock in the city.

Ask your grocer for Vienna food bread. "It's the best."

GETTING BUSY AT WESTERN END

Gap in San Pedro Line Will Be Filled.

WHY RATES ARE ADVANCED

FREIGHT MEN MEET IN ANNUAL SESSION.

Construction work on the gap in the San Pedro line will soon be going on, both on the end and intermediate points. Grading is now being done at Calientes. It is to be commenced at Daggett and the junction of the Manvel branch, with the proposed road, next week. Another construction gang is to be started to work fifty miles west of Calientes as soon as a well can be sunk there and water secured. From all appearances the gap is to be filled up as soon as possible and no time is to be lost.

Word comes from the California end that the J. H. Norton company is rushing out to Daggett and Manvel junction. Work is to be done from Daggett in a northeasterly direction and from the junction to the Manvel junction, the Santa Fe and the proposed road work will be done in two directions—towards Daggett and towards Calientes.

It is expected that grading at these places will commence by the first of next week. By working from two points on the California end, at the same time, more rapid progress is made possible. Both centres of activity are reached by the Santa Fe and supplies and men can be rushed to both places as fast as needed.

Word comes from Calientes that a force of well diggers have started out from there, and will endeavor to find water along the course of the road. The first well is to be sunk about fifty miles from Calientes and the orders of the men were to get it completed as soon as possible and then move along to another station and begin work there. It is supposed to keep these well diggers ahead of the construction gangs, boring wells, that there may be no lack of water when it is needed.

A construction outfit is being shipped here by Corey Bros. of Ogden and as soon as it arrives it will be sent on to Calientes, thence to the site of the first well. Work in grading and laying of track will be commenced at that place as soon as it is possible to do so.

RULE ELECTED TREASURER.

Auditor of the Salt Lake Road Is Promoted.

Los Angeles, Sept. 2.—The directors of the San Pedro, Los Angeles & Salt Lake railroad held a meeting in this city yesterday. This makes a total of eighty-eight cases of the disease in the city at the present time. The names of only three of the seven victims could be secured last night. They are as follows: Strickler, 20 Ontario court; John Free, 163 1/2 West South Temple street; Elmer Trullinger, 514 East Third South street.

The Emigration Dam & Ditch company notified the council that C. Longson, Ben R. Harries, John Prey and A. S. MOTHER WANTS MONEY FOR SON

Mrs. Larkin Sues Saltair Beach Company for \$15,000.

BOY WAS DROWNED JULY 23

CLAIMED MANAGEMENT DIDN'T TRY TO RESCUE HIM.

Mrs. Anna M. Larkin holds the Saltair Beach company responsible for the death of her son, Roy E. Larkin, who was drowned in the lake on the night of July 23, and has entered suit in the district court to recover \$15,000 damages. She makes the allegation in her complaint, which was filed yesterday, that the management had plenty of warning as to the perilous condition of her son before he was strangled to death, but "failed, neglected and refused to rescue or attempt to rescue said deceased from drowning while in said waters."

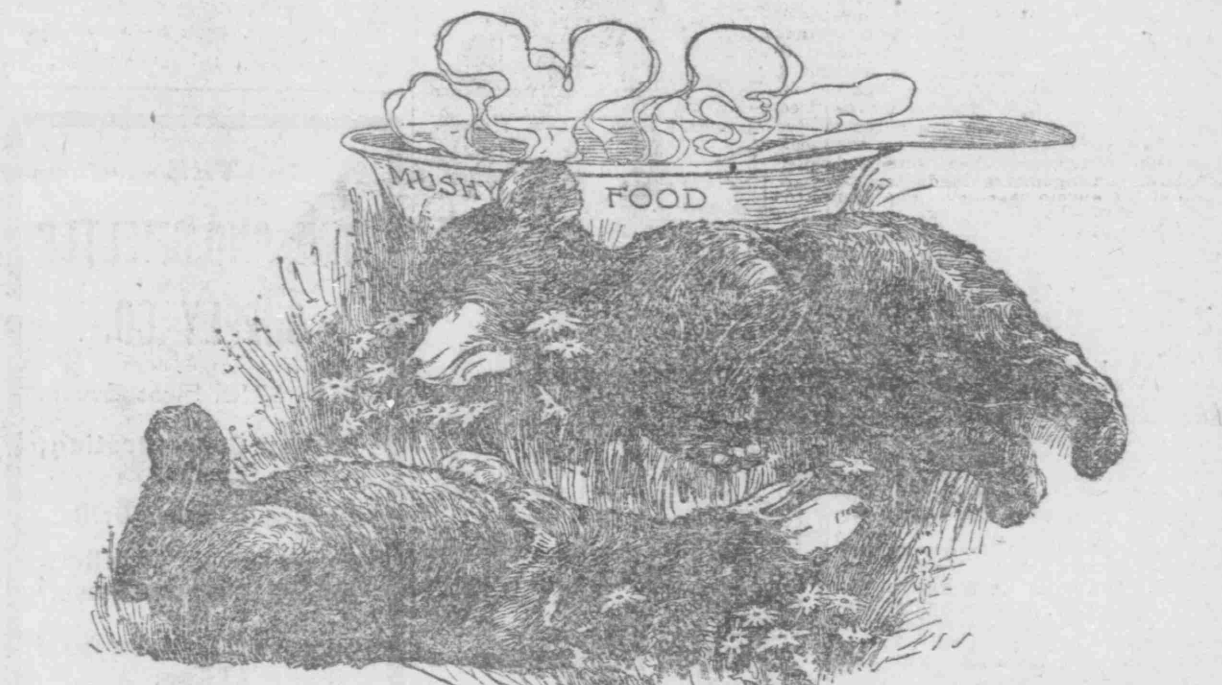

The mother of the young man declares that inasmuch as the management advertises bathing in the lake in the summer months, it is incumbent upon the same to protect the lives of its patrons by placing posts in the water showing its depth, warning people not to go too far out, to return to the pavilion the instant a storm arises, and should, as a further precaution, employ people to rescue bathers who might accidentally get beyond their depth, or otherwise get into trouble.

How the Accident Occurred.
On the evening of July 23, young Larkin, Miss Pomeroy and Ross Wells went in bathing. They waded out a considerable distance from the bath houses, when a sudden storm broke over the lake. It was not long before the wind had whipped the surface of the lake into whitecaps, making it practically impossible but for a strong person to walk against the waves or wind.

The trio made an ineffectual attempt to retrace their steps to the pavilion. Young Larkin's strength gave out and he had to be supported by Mr. Wells. Realizing the seriousness of their position, he sent Miss Pomeroy back to the pavilion for help, it being impossible for the three of them to return together.

After a thrilling battle against wind and wave, Miss Pomeroy reached the pavilion, gave the alarm and then waited anxiously for the rescue of her two companions. An attempt was made that evening to find Larkin and Wells, but without success. The next day Wells was rescued, seated upon a rock in Antelope island. He said the last he saw of Larkin was when he was floating, face downward, in the water. That was taken as evidence that the young man had drowned when he was Mr. Wells said that he had fought all

Dead Johnny Bears.

GONE TO BEAR HEAVEN BY THE MUSHY FOOD ROUTE.

Some little Johnny bears ate too freely of pasty, undercooked oats and wheat—got more starch food than they could digest. One had appendicitis and the other bowel trouble. They learned too late that pasty, starchy and half cooked cereals, added to white bread, potatoes and other starch food, makes more starch than the average man or woman can digest. Then follows "starch indigestion," well known to physicians and a very common complaint. If the food is not changed, serious bowel complaints set up, and all too often appendicitis follows, directly traceable to irritation and disease caused by undigested starch. These facts caused the invention of

GRAPE-NUTS

In which the starch of Wheat and Barley is transformed by scientific cooking into sugar (shining on the outside of each little granule of Grape-Nuts).

One can have the delicious ready-cooked food, enjoy it, obtain the value and energy of the carbohydrates and yet not in the least tax the digestive organs. Don't let anyone deceive you by saying the stomach and bowels need hard and indigestible oats and wheat to give them exercise!!!! They get too much exercise usually with the other food. Never fear that the organs of digestion will get weak FROM LACK OF EXERCISE.

Tax them a little further than you are doing at present and you may join the Johnny bears, with ears in the daisies and feet to the stars. There is sober fact worth careful thought in the tremendous mistake made in the selection and use of indigestible food. Bodily health and increased strength follow the use of

GRAPE-NUTS

Solid proof of its value. There's a reason.

PARADE OF VETERANS

Army of the Philippines Marched Through St. Paul—General King Elected President.

St. Paul, Sept. 2.—The day for the parade of the Army of the Philippines dawned with cloudy and threatening skies, and shortly before the hour set for the start a drizzling rain began to fall. Nevertheless, the programme was carried out, and headed by General C. McCreve as grand marshal, a column about 2,000 strong marched through the downtown streets. The parade was led by a platoon of mounted policemen. Then came the Twenty-first United States Infantry, under command of Major Hunter Leggett, followed by the Tenth United States Field battery, under command of Captain Ridgeway.

Two little squads of G. A. R. men called for the greatest applause accorded any organization. The third division consisting of the Third infantry, M. N. G. The fourth division also consisted of the state national guard being composed of parts of the Second and First battalion of artillery, also the boys' brigade. Then came a dozen carriages containing Governor Van Sant and staff and several officers connected with the army headquarters.

Next followed what was perhaps the most beautiful feature of the parade, a living flag, composed mostly of little girls. The Society of the Army of the Philippines, under command of Brigadier General Hale, was the last, but by far the most imposing, at the head of it rode General Hale and General King and Colonel Metcalf. They marched well and were greeted with cheers and waving hats all along the line.

At the business session this afternoon officers were elected as follows: President, General Charles King, Wisconsin; first vice president, Colonel J. W. Pope, Colorado; second vice president, Captain M. Shute, St. Paul; fourth vice president, Captain H. A. Crowe, Pennsylvania; fifth vice president, Colonel W. S. Metcalf, Kansas; secretary, A. E. Potts, Missouri; treasurer, J. E. White, Illinois; chaplain, Captain James M. Mailley, Nebraska. The reunion came to a close tonight with a camp fire at the People's church. Governor Van Sant made an address in behalf of the state and General Irving Hale, retiring president of the Army of the Philippines, responded. Captain Mailley also made an address and informal talks were given by General King, General Reeve, Colonel Metcalf and others.

FATAL JAWING MATCH.

Deaf Mute of Chicago Shoots His Wife Five Times.

Chicago, Sept. 2.—William Sipes, a deaf mute, had a quarrel in written conversation with his wife last night, and at its climax shot her five times, inflicting wounds from which she probably will die. When the police arrived Sipes attempted to escape and while climbing on the roof of his house was dragged back by detectives. He pointed his revolver in their faces and made the trigger, but all the bullets had been discharged at his wife. In the house the police found roughly written notes which had made up the conversation of the deaf man and his wife and which apparently had led to the attempted murder.

TRAITORS CONFESSED.

Berlin, Sept. 2.—The sergeant and six privates who were recently arrested for treason at Metz have confessed that they sold two bombs with new secret fuses attached for an agent of France.

WALKER'S STORE

SPLENDID BARGAIN ITEMS FOR THURSDAY AND FRIDAY.

YOU MAY BUY GOOD HANDKERCHIEFS "CHEAP." 35c Kinds for Women--20c each. Children's up to 8 1/2c at--5c.
